Student Creative Challenge 2026

Further the movement. Inspire action. Support housing.

TIMELINE	SHOWCASE
25 Apr - 25 May, 2026	**24 Jun, 2026**

For 25 years, Habitat for Humanity Vietnam has worked alongside families, communities, and partners to build strength, stability, and self reliance through housing. Yet millions still lack safe, healthy, and dignified homes – affecting their health, education, livelihoods, and opportunities to thrive. As we celebrate our milestone anniversary, we're opening the door to the next generation.

We invite your student association to join us in a national movement where youth voices can inspire action, spark empathy, and reimagine what safe housing means for Vietnam's future.

This is more than a contest – it is a call to shape the future of housing.

The challenge

Students explore this through four pathways:

1. Open the Door to Health

How does safe housing protect families from illness, unsafe water, and environmental risks?

2. Open the Door to Learning

How does stable shelter help children study, dream, and succeed?

3. Open the Door to Livelihoods

How can improved housing create economic opportunity and family resilience?

4. Open the Door to Inclusion (GEDSI)

How do we ensure homes are safe, accessible, and dignified for women, people with disabilities, and marginalized groups?

Further the movement and inspire action to support housing.
